Bird's-eye View of Irving Military Academy and Grounds, Lake View, Ill.

## ADVANTAGES.

The Principal's and Commandant's families reside at the Academy, also four Professors. Parents may rest assured that their boys will have the best of care and guidance, with a good home influence such as is not obtained at Academies of this character. Cadets are received into our families and are required to attend church with us on the Sabbath and Bible class in the afternoon, and at all times are under a good Christian influence.

Another feature we wish to present is, that we limit the number of Cadets to forty and under no consideration will any more be received at the Academy; and with four resident Professors we know we can do justice to each Cadet.

The Cadets have good rooms (not dormitories), well furnished and carpeted, and many advantages that other schools do not present.

The grounds, consisting of twenty acres, are the finest Academy grounds in this country.

The pupils will be permitted a free expression of their thoughts and feelings, by letters to their parents, to whom they are expected to write at least every two weeks. Parents are requested to communicate freely with the Commandant on all matters concerning their sons at school, and especially on the subject of any complaint made by them, that if reasonable, it may be immediately attended to, and if not well founded, it may be explained.

The Cadets associate together in the Academy and on its grounds, and are not to leave them at any time without special permission. When absent on leave, they are limited to a special time, at which they are to return and report themselves to the commandant.

It is intended to combine strict discipline with easy and instructive intercourse between teachers and pupils, so as to secure at the same time the family influence on the affections, and the efficiency of system and order.

Gentlemanly conduct and respect and obedience to teachers and school regulations will be expected and required.

THIRTEENTH ANNUAL CATALOGUE

— OF THE —

IRVING

MILITARY ACADEMY,

( FORMERLY IMMANUEL HALL.)

LAKE VIEW, - - ILLINOIS.

( NEAR CHICAGO.)

*Number of Cadets Limited to 40.*

*Four Resident Professors.*

COMMENCING THURSDAY, SEPTEMBER 5, 1878.

FOR RESIDENT CADETS ONLY.

Office, 169 Madison St., Room 3, Chicago, Ill.

1878-79

## Academic Staff.

CAPT. J. CLAUDE HILL, Commandant,

*Civil and Military Engineering and Instructor in Tactics.*

COL. G. S. HOLLISTER, A. M., Graduate U.S. Military Academy,

*Prof. of Mathematics, Elocution, and the Natural Sciences.*

R. WALDMEYER, A. M., (Native German),

*Prof. of Latin, Greek, German and French Languages.*

LOUIS A. HILL,

*Prof. of Penmanship and Practical Book-keeping.*

MISS SOPHIA SMITH,

*Teacher of Music and Voice Culture.*

M. H. HOLMES,

*Prof. of Painting and Drawing.*

D. E. SHAW,

*Prof. of Dancing and Drawing-room Etiquette.*

DR. J. P. MILLS,

*Physician.*

MRS. J. C. HILL,

*Matron.*

## MILITARY STAFF.

## Location and Buildings.

Immanuel Hall, was founded A. D. 1863, by the Rev. Roswell Park, D. D. It is situated in the Township of Lake View, six miles Northward from Clark Street Bridge, in Chicago, and one mile due West from the gate of Graceland Cemetery, to which the Irving Park Boulevard is now opened and in good condition. It is accessible by private conveyance *via* Wells Street and Lincoln Avenue, or around by Graceland. The Horse Cars on North Clark Street run in connection with a Dummy car to Graceland, whence it is an easy walk to the Academy. The accommodation trains on the Milwaukee Railroad, stop at Academy Station, one-half mile from the Academy. See Time Table on last page.

The grounds consist of 20 acres, part grove and part lawn, and are laid out with much care and taste, and its surroundings are beautiful. Two miles west is one of Chicago's most flourishing suburban towns, Irving Park; two miles east Lake Michigan; two miles and one-half southeast, Lincoln Park, Chicago; and one mile northeast another beautiful suburb, Ravenswood. The land is high and dry and a heavy growth of timber covers the ground in vicinity of the Academy for miles, and it is unquestionably the most beautiful and healthful location near Chicago.

The Academy buildings are built of Milwaukee Brick and are in good repair, and were constructed with entire reference to the convenience and comfort of cadets. The campus, embracing 20 acres, affords a superior place for drill and physical recreation, producing feelings of cheerfulness and contentment.

The Ground Floor of the Academy consists of a Dining Hall, Kitchen, Laundry, Bath Rooms, Wash Rooms, Gymnasium, Store Rooms, and Sleeping Rooms for servants.

The Second Floor consists of a Reception Hall and Parlors, Library and Reading Room, Professors' and Matron's Rooms, also Cadets' Rooms (*not dormitories.*)

The Third Floor consists of Cadets' and officers' sleeping Rooms, large, airy and well-ventilated.

NOTE.—We wish parents and patrons to understand that we have no contracted dormitories, but large, well-ventilated rooms, spring beds, hair mattresses.

## The Gymnasium

Is a large, well ventilated room fitted up with all the paraphernalia of a Gymnasium.

## The School Room.

The School Room and Drill Hall connects with the main building by a covered passage-way. In the school Room proper we purpose to show the improvement which can be made by earnest work in mental culture, teaching the cadets to think for themselves, that when they become men they may act for themselves, and be useful citizens in any community.

## The Drill Hall.

The Drill Hall is directly over the School and Recitation rooms, and is a large, commodious Hall 40 x 60 feet, and without doubt is the finest Drill Room in any school of the kind west of New York. Connected with the Hall is the Quartermaster's Department and Armory.

## Design and Character.

In this institution boys are furnished with a thorough mental, moral and physical training. To accomplish this, the Commandant is assisted by a corps of experienced and competent Professors, who are thoroughly enlisted in the cause of education and alive to the several obligations resting upon them.

Thoroughness is a marked characteristic in each department. No effort will be spared to make the instruction at the Academy apply to the practical, every-day life of the student, when he has gone out into the world to meet the realities of maturer years.

It is designed in this institution to unite with mental and moral culture, thorough Military instruction, both theoretical and practical. The physical exercise of the drill tends to develop a healthy and vigorous constitution. In all the routine of duties the cadets are subjected to a system of regulations calculated to make them prompt, systematic and gentlemanly.

The Bible being God's "Rule of Right," it is the standard text book of morality in the institution. It will be the endeavor of the Commandant and Professors, by means of familiar lectures and social intercourse (without sectarian bias,) to plant its ennobling principles in the hearts of the cadets entrusted to their care.

We desire while training the mind to educate the heart, and with this purpose in view, we ask God's blessing upon our endeavors, and trust that we shall receive the earnest support and hearty co-operation of parents and patrons who desire to see their sons grow up wise, just and true men.

## INSTRUCTION.

The *Course of Instruction* is sufficiently comprehensive to fit students for advanced classes in any of our leading colleges or scientific schools, or for the Military Academy at West Point, or the Naval Academy at Annapolis, and for Practical and Commercial pursuits.

Three Liberal Courses are in successful operation—Scientific, Classical and Commercial. If it is the desire of the parent, a cadet may take up only one of these, yet it is hoped that parents will allow their sons to complete the entire course of instruction before leaving the institution.

## COURSE OF STUDY.

The Classical Course embraces the Latin and Greek Classics, and such other studies as are required to prepare young men thoroughly for Harvard or Yale.

### Preparatory Course.

Orthography Reading—History U. S.

Penmanship, Arithmetic—both Mental and Written Geography  
and Map-drawing.

English Grammar—Latin, optional.

Modern Languages—optional.

### Scientific Course.

#### FOURTH CLASS.

Mathematics—Algebra.

Philosophy—Natural and Experimental.

English Grammar and Analysis.

American History.

Early American Literature.

Drawing—French, German Latin, optional.

Etymological Exercises—Reading and Penmanship.

Elocution—English Composition.

#### THIRD CLASS.

Mathematics.	{	Geometry. Trigonometry. Line Surveying. Analytical Geometry.
--------------	---	---

Chemistry.

Rhetoric.

English Literature.

Drawing—French, German, optional, Latin, Greek, optional.

Elocution and Composition.

#### SECOND CLASS.

Mathematics.	{	Descriptive Geometry. Calculus. Differential and Integral.
--------------	---	--

Mechanics.	{	General Principles. Composition and Revolution of forces.
------------	---	--

Chemistry—Blow Pipe Analysis.

Science of Government.

Modern Languages, optional.

Latin and Greek, optional.

Elocution and Computation.

#### FIRST CLASS.

Mathematics.	{	Single Plane Projection. Stone Cutting.
--------------	---	--

Mechanics.	{	Mechanics of Solids. Mechanics of Fluids. Motion of water in Pipes.
------------	---	---

Optics.

Civil Engineering. { Theory, Roads, Bridges, Canals, Strength  
of materials, &c.  
Practical Operations, Use of Level and  
Theodolite Leveling for Sections and  
Working Drawings.

Astronomy—Spherical, Appearances, Magnitudes, Distances of  
Heavenly Bodies, Latitude and Longitude.

Chemistry—Humid Qualitative Analysis, Mineralogy, Geology.  
Elocution and Composition.

### Commercial or Business Department.

Those who are able to accomplish more than is included in this course, will also be entered in other classes of the School; the following being those selected as associate studies:

The French and German Languages.

Algebra.

Natural Philosophy.

Geometry.

Chemistry.

One or more of these may be taken in connection with the regular

### COURSE OF STUDY.

#### FIRST TERM.

Daily Exercises in Penmanship.

Book-keeping Commenced.

Crittendon's Commercial Arithmetic to Dividends and Investments.

Business Correspondence.

#### SECOND TERM.

Penmanship.

Book-keeping completed.

Commercial Arithmetic completed.

Daily Exercises in Trial Balances; Annuities; Exchange; Averaging Accounts, etc.; and Essays upon United States Bonds, Stocks, Real Estate Investments; Commercial Law.

#### THIRD TERM.

Mensuration; The Mechanical Powers and other Calculations in Natural Science; The study of Business Forms and the use and meaning of Business Terms; the establishment of a Bank, also a Business Firm, and their management for a specified time; The Constitution of the United States; Commercial law relating to Agreement or Contract; Sales; Negotiable Paper; Partnerships, Payment; Mortgages; Tender and Shipping.

Exercises in Penmanship, Reading, Spelling and Defining, *daily* during the course. Regular weekly exercises in Composition and Declamation, throughout the entire course.

Students in the Classical Course may pursue one of the Modern Languages—German or French—or any of the branches of Natural Science which are laid down in the regular English and Scientific Course.

### **Military Instruction**

Here there are two departments—Theoretical and Practical. The former consists of the studies of the drills of the several corps of the army, strategy, field fortification, siege operations, construction of roads and bridges, and other branches of military engineering. This course is pursued in the school room during the hours assigned for study. It is optional, and may be omitted at the request of parents or guardians.

The Practical consists of the drills in infantry and artillery tactics—the sword and bayonet exercises, guard duty, and so much of the actual field operations included in military engineering as the time of the cadets will permit. This course is attended to in the hours assigned for drill in the table of time, and all Cadets are required to participate in it.

### **Target Practice.**

There is a regular monthly Target Practice the last Saturday of each month, and an annual Target Shoot the last Saturday of the school year, for

#### **PRIZES**

consisting of first, second and third prizes. First prize, a gold badge for best shot. Second and third prizes, silver badges same pattern as gold badge.

At last year's Target Shoot, G. G. Garretson, of Muscatine, Ia., carried off first prize; J. F. Davenport, of Freeport, Ill., second prize, and Lewis Nichols, of Lebanon, Ill., third prize.

### **Hospital.**

In cases of sickness more threatening than those light attacks of headache, etc., with which boys are occasionally visited, parents may rely upon the prompt attention of the surgeon or such other physician as the patron or Commandant may designate. Attentive and experienced nurses will do all that is possible to relieve the patient.

### **Matron.**

The Matron will have control of the household department, and will see that the Cadets are at all times well cared for, their clothing not misplaced and their rooms made comfortable and home-like. She will also see that their clothing is kept in repair. In case of sickness she will see that nothing is omitted that may be needed for their welfare and comfort.

### **Wardrobe, Uniform, &c.**

The dress uniform of blue will be made and trimmed according to the pattern in the Academy.

The cap will be made of blue cloth, according to the pattern in the Academy.

The overcoat will be made of blue cloth, according to the pattern in the Academy.

Every Cadet will be required to have one suit of uniform always in order. For undress, a uniform of gray, made and trimmed according to the pattern in the Academy, will be worn when off duty.

In order to secure perfect uniformity and cheapness, all uniform clothing should be purchased of the tailors of the Academy. The regulation cap is procured at the Academy.

Each Cadet should provide himself with the following articles:

Three pairs of white cotton gloves for drill.

Six white shirts, six white linen turn-over collars, six pairs of socks, three pairs of drawers. Three undershirts, two night shirts, six pocket handkerchiefs, one plated tea and desert spoon and one napkin ring; one plated fork, four towels, four table napkins, three sheets, three pillow cases, one clothes bag, one comforter, two blankets, one pillow, one clothes brush, one hair brush and comb; one tooth brush, one blacking brush with blacking, one paper of needles and assorted threads.

Each article owned by Cadet must be marked, as far as practicable, with owner's name in full; otherwise the Commandant will not hold himself responsible for missing articles.

### Laundry.

Each Cadet will be entitled to one dozen pieces per week; additional pieces will be charged for at the rate of 75 cents per dozen.

### Table of the Employment of Time.

6 A. M.	.....	Reveille.
6:15 A. M.	.....	Roll Call.
6:15 to 7:15	.....	Study.
7:15	.....	Breakfast.
7:45	.....	Guard Mounting.
8:30 to 12:15 P. M.	.....	Study and Recitations.
1	“	..... Dinner.
2 to 4:15	“	..... Study and Recitations.
4:30 to 5:30	“	..... Drill and Dress Parade.
6	“	..... Supper.
7 to 8	“	..... Study.
9	“	..... Roll Call.
9:15	“	..... Taps.

In the above Table it will be seen that eight hours per day are assigned for studies, one and one-half for drill, eight for sleep, and one and one-half for meals, leaving five hours for recreation or special duties.

For Saturday—and Sunday of course—this table is changed, but all duties on every day are performed with the strictest regard to punctuality.

After Evening Roll Call the cadets will retire quietly to their sleeping apartments, where each, in his own appointed bed, may repose as undisturbed as at his own home. The regulation for cadet quarters enjoins *perfect quietness* from taps until reveille. No conversation upon any subject whatever is permitted, excepting necessary communication to an officer of the Academy. To ensure this, the officer in charge will be present, and strictly enforce this regulation.

The officer has a constant oversight of the cadets, and is responsible for their good behavior during his tour of duty.

This constant supervision of cadets will assure parents that no effort is spared to avoid the influences resulting from carelessness or defective discipline.

### Calendar.

The Academic Year consists of one session, commencing on Thursday, Sept. 5th, 1878.

Christmas Vacation commences Friday, December 20th, 1878, and ends January 3rd, 1879.

Session ends Friday, June 13th, 1879.

Closing Exercises at 10 A. M., on the last day of the session.

Parents are earnestly requested to have their sons present on the first day of the session, and on the first day after the close of the Christmas vacation, as punctuality is of great importance.

Every Cadet will be required to answer to the first roll call after each vacation, and failure to do so on their part, will be regarded as a want of punctuality and will be reprimanded as at any other period of the session.

No cadet will be permitted to leave the Academy, except by *written* permission of the Commandant.

Absence from duty, on any account whatever, injures the standing of cadets.

Saturday is the only day assigned for parents and friends to visit cadets. Visiting the Academy on the Sabbath is *positively prohibited*.

### Financial.

The charges per session are payable, one-half upon entering, the remainder on the second of January.

Cadets entering after the second week of the session will be charged only from date of entrance; one-half upon entering, the remainder on the second of January.

### Terms.

Instruction in all branches taught in the English and Commercial course, board, washing, lights, fuel, etc., per annum, exclusive of vacation, - - - - - \$360.00

### Extra Charges.

Music on Piano, per annum, - - - - -	\$75.00
Use of Piano, " " - - - - -	10.00

Vocal Instruction, per annum,	- - - - -	40.00
Modern Languages " "	- - - - -	40.00
Drawing, " "	- - - - -	20.00
Painting, " "	- - - - -	70.00
Dancing Lessons, " "	- - - - -	12.00

Closing Exercises, \$2.00.

To those who prefer a stated sum \$500.00 per annum will be charged; and for it the pupil will be entitled to *all* the advantages of the Institution, with *no* extra charges. Books and Stationery extra.

### Notice.

In entering a pupil, the engagement is distinctly understood to be for a School year, or to the close of the current School year, in June, and no one can be admitted for a shorter time. The same rule regulates every renewal of the engagement. The arrangements of the school being made for the year, render these conditions absolutely necessary.

Text books and stationery are furnished, when required at the regular booksellers' prices.

N. B.—As the number of pupils is limited, and the applications usually exceed in number the vacant places, notice of removal must in all cases be given at the close of the current year, or the pupil will be considered as having entered for the next year.

Vacancies generally occur at the close of the term in June, but applications should be made as far in advance of that time as possible; and if by strangers, a proper introduction from some gentlemen already acquainted with the School will be required. Parents who desire the select character of the School to be maintained, will appreciate the necessity of this precaution.

Pupils may be received at any time in the term should a vacancy occur, and they will be charged for the rest of the School year; but no deduction will be made for absence, or for the voluntary withdrawal of a pupil before the close of the year.

Cadets are prohibited from wearing any but the uniform dress prescribed by the institution. It is made after the Cadets' arrival and by the Academy tailor only, and at a much less figure than can be done elsewhere.

Bills arising from medical attendance will be extra. Should sickness detain any cadet from the Academy longer than one month five dollars per week will be refunded.

### General Regulations.

#### THINGS REQUIRED.

Quick and willing obedience, gentlemanly conduct, studiousness, honor, promptness, neatness of room, desk and person. In the school room, strict attention to your own business. In the ranks, hands at side, head erect, eyes front, and silence. To report immediately any damage done.

## THINGS FORBIDDEN.

To visit any Billiard Saloon or place where liquors are sold. To have in possession or use, cards, fire-arms or weapons. To borrow money. To force any Cadet into a game in which he does not desire to take part. To engage in boisterous play in any part of the building except the play-room. To cut or mark the buildings. To throw stones or sticks. To climb flag-staff or trees. To throw anything from windows. To converse in reading-room. Spitting or throwing anything upon floors. To communicate or have lights in dormitories after taps and before reveille. To exercise in gymnasium or on play-ground in best suit. To address teacher or pupil in school session without obtaining permission by raising the hand. To have in school-room any book, paper or other article not pertaining to school duties. To have unmarked articles.

Permission must be obtained from Commandant to visit the room of another Cadet, or to borrow or loan articles. To visit any resident of the village. To enter dining-room, kitchen, laundry, or wash-rooms.

**DISCIPLINE.**—The discipline of this institution is of a military kind, and violations of its rules and regulations render Cadets liable to extra duties, fatigue details, room arrests and close confinement. These punishments are firmly and impartially administered after each offense has been carefully examined or fully tried. The delinquent has the privilege of explaining and defending his case; and there is preserved a full record of all delinquencies and punishments, open to the examination of patrons and visiting committees.

This institution expects not only to make scholars of its Cadets, but to inculcate in them the principles of honor and integrity. Not alone to send out its graduates as educated men, but as true gentlemen. From a trial of twelve years in this Academy, the military discipline has been found to produce the best effect upon the general deportment, health and scholarship of the Cadets. From no other system has the Commandant seen so good results in the general improvement of young men.

**ABSENCE.**—As absence from a single recitation interferes with the student's progress and is prejudicial to the school in many respects, no Cadet will be allowed to leave the institution during the time of school duty, except in cases which the judgment of the Commandant shall determine to be absolutely necessary. The teachers will be most happy to have parents visit the Academy at any time, and see its workings, provided they do not take their sons from recitations and necessary study hours. The students are free from study and recitations on Saturdays.

**MORALS.**—No Cadet will be retained in the Academy whose influence over his associates is known to be bad. The Commandant desires no one to enter who does not intend to be a gentleman; and no one who has been expelled from another school for a sufficient cause will be admitted to this.

**SUNDAYS.**—Cadets will be required to attend Church with the Commandant. All the Cadets will study and recite a Bible lesson on Sunday in the afternoon.

**RETURN TO SCHOOL.**—At the end of vacations, signals will be given for roll calls, and it is a rule of the school that every cadet shall answer to these calls, and failure to do so will be regarded and punished as a high delinquency, unless the parent sends an excuse to the Commandant, in which case extra duty only will be required of the Cadet. Each class is divided into sections, according to the proficiency of cadets; and a short absence after vacations will often force a cadet into a lower section.

**DAMAGES.**—Every Cadet is required to report and make good

all damage done by him to his arms and accoutrements, as well as to the other property of the institution. If necessary all the cadets will be assessed for damage done.

DIET.—The Commandant is induced to say that the mess hall ever has been and ever will be furnished with abundance of plain, wholesome food, such as has constantly increased the weight and promoted the health of his Cadets. If any cadet, for the sake of getting a box of eatables from home, or for other cause, represents that his diet is deficient in quantity or quality, it is simply a false representation. The Commandant requests that no boxes of food be sent to cadets, as they are often sick immediately after the receipt of such boxes. Ripe fruit is not objectionable, but its expense, when sent from home, is more than when obtained here, on account of expressage.

Parents and Guardians will please deposit all spending moneys with the Commandant, so that cadets will receive spending money only through him, and no other, while subject to the regulations of the institution. *This rule must be strictly complied with.*

Cadets will incur no debts without distinct permission from the Commandant.

The fact of parents sending their sons to this Academy shall be considered an order to furnish them with and keep in order the articles required in this catalogue.

Drafts will be forwarded for all bills not paid within five days after the 6th of September and the 2nd of January.

Report of the scholarship and deportment of the cadets is prepared for the Parents and Guardians three times a year, also for parlor, library and dining room manners.

Cadets received at any time and charged from date of entrance, from the age of 9 to 20.

For further information address,

IRVING MILITARY ACADEMY,

169 Madison St., Room 3, CHICAGO.

TESTIMONIALS.

BELLEVILLE, ILL., July 6th, 1877.

It affords me great pleasure in recommending the Irving Military Academy to Parents and Guardians as a first class Institution of learning for boys. The location of the Institution and the conveniences are excellent; Capt. J. C. Hill, Military Commandant of the Academy, is a strict and impartial disciplinarian, and worthy the confidence of all who may entrust their boys to his care.

My son has been a pupil of said Academy for the past year, and I will be pleased to return him at the close of vacation.

DR. LOUIS C. STARKEL.

Office of F. NOHL, Real Estate Agent,  
 407 Walnut St., St. Louis, Mo., July, 1877.

Having two boys at the I. M. A. for the past year, I do hereby take occasion, having visited the Institution and knowing its officers, and the way it is carried on, to recommend the same to parents and guardians, for the Education and Training (excuse expression) of boys.

Very Respectfully,  
 F. NOHL.

MUSCATINE, IOWA, June 26th, 1877.

Captain J. C. Hill, Chicago.

Dear Sir:—I can truly say that I am well pleased with my son's progress during the past two years, and expect to have him continue his studies next year. To all parents wishing the advantage of a first class Academy, I can promise them satisfaction at Irving Military Academy.

Yours Truly,

G. A. GARRETTSON,  
 Pres't Muscatine National Bank.

CHICAGO, JULY 8, 1876.

I take pleasure in being able to say to parents, who, like myself, have felt and now feel the necessity of a first class school in our immediate vicinity, for the education of our boys, that Capt. J. Claude Hill, who is now connected with the Irving Military Academy, at Lake View, Ill., (near Chicago) is highly qualified for the responsibilities of such an Institution, and is the best man for the position I know of, having my son under his immediate care and discipline for the past year in a similar Institution, and knowing his former success, enables me to speak with confidence of his ability to conduct an Institution of a high order.

J. P. BREWSTER.

CHICAGO, JULY, 7, 1876.

Office of HARRISON &amp; WHITEHEAD, ATTORNEYS.

I am pleased to say that I have been acquainted with Capt. J. Claude Hill, for several years, and knowing his success as an accomplished drill master and disciplinarian, I am confident that the Irving Military Academy, which he has now connected himself with, will prove a permanent success. No better point can be found for a first class Academy than at Lake View.

E. J. WHITEHEAD.

LEBANON, Ill., June 14th, 1878.

Capt. J. Claude Hill.

*Dear Sir:*—Clay arrived home safely, and we were glad to see such improvement. I am under lasting obligations to you for what you have done for my son.

With many kind wishes,

Yours Truly,

MRS. KATE PYLE.

June 28th, 1878.

Capt. J. Claude Hill.

*Dear Sir:*—Having visited your Academy, I can cheerfully recommend it as just the place to develop boys physically and mentally and fit them for the duties of life.

Will be pleased to have my son with you another year.

Yours Respectfully,

J. D. CLAPP, Esq.,

President First National Bank,

Fort Atkinson, Wis.

GRAND DETOUR, Ill., June 24th, 1878.

*Capt. Hill:*—I am pleased with my son's improvement, and am anxious to send him to you another year.

Respectfully,

MRS. E. F. ROGERS.

The above are only a few of the many letters sent us.
